The Fox Point - Bayside PTO is proud to sponsor:

Youth Mental Health Presentation and Discussion with Dr. Steve Dykstra

May 22nd at 7:00 pm
Bayside Library Media Center

Dr. Steven Dykstra is a Clinical Psychologist with the Milwaukee Behavioral Health Division and is the director of the County Trauma Response Team. Part of his job is going out into the community after a traumatic event occurs to ensure youth and family have the support they need to move forward. Dr. Dykstra has over 25 years of experience with thousands of challenging and complex cases, and has provided training and presentations to dozens of groups here and around the country. He will provide information and insight on many aspects of child mental health, with a special emphasis on bullying, trauma, development, and growing up in our modern age. A question and answer period will be provided after his presentation.

All are welcome. Light refreshments will be provided by the PTO.
