First Lego League challenges kids to think like scientists and engineers. In the program, they work with Nicolet FEAR robotics team members, teachers, and peers as they apply STEM concepts to design, build, program, test, and evaluate a LEGO MINDSTORM® robot while also solving a real world problem chosen by the students to meet this year’s theme of Space Exploration! The entire program is rooted in engineering and designed to help students gain valuable life skills including critical thinking, reasoning, team building, public speaking, and leadership.

Contact Dan Savagian (savagian@nicoletfear.com) or check out www.nicoletfear.com and www.firstinspires.org for more information. 

In partnership with Nicolet High School’s Team 4786: Nicolet FEAR

On September 6, 2018 at 6:00 pm there will be a parent information meeting. This meeting will provide important information about FIRST LEGO League.
